OBJECTIVE

To secure a challenging position as a **Frontend Engineer** where I can utilize my expertise in building scalable, high-quality web applications, while leveraging my proficiency in React, Next.js, and software development to contribute to innovative and impactful solutions.

EXPERIENCE

- 1. Software Engineer – Queries AI [May 2023 – June 2024]**
 - Developed and maintained key features for SaaS applications using React JS.
 - Develop and maintain a documents generator repository (JSON to PDF/CSV).
 - Work on product features and various microservices of SaaS application.
- 2. Manual tester / QA Engineer - Stealth US Digital Health Company (consulting project under NDA). [October 2022 – April 2023]**
 - Collaborated with developers and product teams to ensure a polished **user interface (UI)** and seamless **user experience (UX)**.
 - Conducted rigorous testing to identify and resolve critical bugs, enhancing the overall functionality of web applications.
 - Provided actionable feedback on UI/UX design and frontend workflows to improve user engagement.
 - Documented detailed test cases and debugging processes, strengthening problem-solving and attention-to-detail skills.
 - Gained hands-on experience with end-to-end testing protocols, enhancing the ability to debug and optimize frontend applications.
- 3. Junior Software Engineer - BhaloVentures ltd. [February 2022 – September 2022]**
 - Implemented dynamic features like **Bangladesh Map Search**, **Search AutoComplete**, and **Car Comparison Pages** using React and Next.js.
 - Designed and developed dashboards for users and merchants, along with profile editing modules.
 - Performed bug fixes and optimized performance for various applications.
- 4. Internship - BhaloVentures ltd. [November 2021 – January 2022]**
 - Contributed to back-end API development using **Django Rest Framework (DRF)** and integrated EMI calculators.
 - Fixed minor bugs and refined CSS for responsive design.

CONTRACTUAL EXPERIENCES

- 1. Senior Frontend Engineer – A Food Delivery Startup (Consulting project under NDA) [July 2024 – September 2024]**
 - Spearheaded frontend development for user, merchant, and admin dashboards.
 - Delivered critical features, including user authentication, dashboard analytics, and merchant management tools using React.js and Next.js.
 - Collaborated with cross-functional teams to design scalable architectures and ensure timely delivery of features.
 - Enhanced communication skills by working directly with stakeholders to prioritize and refine deliverables.

2. Frontend Developer – Online Casino Company (Consulting project under NDA) [January 2022 – October 2024]

- Designed and developed **7 blog websites** with multiple routes to support SEO strategies, using **React** (2 projects) and **Next JS** (5 projects).
- Implemented modern responsive designs, optimized for performance and search engine visibility (SSR).
- Collaborated with clients to refine requirements, ensuring seamless integration of SEO practices with functional designs.
- Gained expertise in building scalable, maintainable front-end architectures while managing multiple projects simultaneously.

SKILLS

Expert: ReactJS, NextJS, JavaScript, MongoDB, Express JS, Django DRF, Git, HTML, CSS, Bootstrap, Tailwind, Material UI, REST API, React Router.

Comfortable: Java, MySQL, Python, ES6, DOM manipulation.

Familiar: Typescript, PHP, Context API, WordPress.

Tools: Visual Studio Code, Sublime Text, Firebase, Github, Figma, Heroku.

EDUCATION

BRAC University , Mohakhali, Dhaka	2016 - 2021
Bachelor of Science in Computer Science and Engineering	

Pearson Edexcel , London, United Kingdom	2013 - 2015
Ordinary (O Level) and Advanced Levels (A Level)	

PROJECTS AND ACHIEVEMENTS

- Document Generator Tool: Built a tool to automate document generation from JSON to PDF/CSV for Queries AI.
- Search AutoComplete & Map Search: Delivered seamless user experiences for dynamic search systems using React.js and Next.js.
- Developed a consistent system from CSS to routes for the repetitive similar like projects.
- Daily Star Award for achieving outstanding results in O levels.

NOTABLE STRENGTHS

- Proficient in client communication, including remote collaboration.
- Adept at scalable architecture design for modern web applications.
- Strong enthusiasm for code optimization and efficient solutions.
