OBJECTIVE

To secure a challenging position as a **Frontend Engineer** where I can utilize my expertise in building scalable, high-quality web applications, while leveraging my proficiency in React, Next.js, and software development to contribute to innovative and impactful solutions.

EXPERIENCE

1. **Senior Frontend Engineer – A Food Delivery Startup [July 2024 – September 2024]**
   - Spearheaded frontend development for user, merchant, and admin dashboards.
   - Delivered critical features, including user authentication, dashboard analytics, and merchant management tools using **React.js** and **Next.js**.
   - Collaborated with cross-functional teams to design scalable architectures and ensure timely delivery of features.
   - Enhanced communication skills by working directly with stakeholders to prioritize and refine deliverables.

2. **Software Engineer – Queries AI [May 2023 – June 2024]**
   - Developed and maintained key features for SaaS applications using React JS.
   - Develop and maintain a documents generator repository (JSON to PDF/CSV).
   - Work on product features and various microservices of SaaS application.

3. **Frontend Developer – European Online Casino Company [January 2022 – September 2024]**
   - Designed and developed **7 blog websites** with multiple routes to support SEO strategies, using **React** (2 projects) and **Next JS** (5 projects).
   - Implemented modern responsive designs, optimized for performance and search engine visibility (SSR).
   - Collaborated with clients to refine requirements, ensuring seamless integration of SEO practices with functional designs.
   - Gained expertise in building scalable, maintainable front-end architectures while managing multiple projects simultaneously.

4. **Manual tester / QA Engineer - Stealth US Digital Health Company (consulting project under NDA). [October 2022 – April 2023]**
   - Collaborated with developers and product teams to ensure a polished **user interface (UI)** and seamless **user experience (UX)**.
   - Conducted rigorous testing to identify and resolve critical bugs, enhancing the overall functionality of web applications.
   - Provided actionable feedback on UI/UX design and frontend workflows to improve user engagement.
   - Documented detailed test cases and debugging processes, strengthening problem-solving and attention-to-detail skills.
   - Gained hands-on experience with end-to-end testing protocols, enhancing the ability to debug and optimize frontend applications.

5. **Junior Software Engineer - BhaloVentures ltd. [February 2022 – September 2022]**
   - Implemented dynamic features like **Bangladesh Map Search**, **Search AutoComplete**, and **Car Comparison Pages** using React and Next.js.
   - Designed and developed dashboards for users and merchants, along with profile editing modules.
   - Performed bug fixes and optimized performance for various applications.

6. **Internship - BhaloVentures ltd. [November 2021 – January 2022]**
   - Contributed to back-end API development using **Django Rest Framework (DRF)** and integrated EMI calculators.
   - Fixed minor bugs and refined CSS for responsive design.

SKILLS

Expert: ReactJS, NextJS, JavaScript, MongoDB, Express JS, Django DRF, Git, HTML, CSS, BootStrap, Tailwind, Material UI, REST API, React Router.

Comfortable: Java, MySQL, Python, ES6, DOM manipulation.

Familiar: Typescript, PHP, Context API, WordPress.

Tools: Visual Studio Code, Sublime Text, Firebase, Github, Figma, Heroku.

EDUCATION

BRAC University, Mohakhali, Dhaka   2016 - 2021
Bachelor of Science in Computer Science and Engineering

Pearson Edexcel, London, United Kingdom   2013 - 2015
Ordinary (O Level) and Advanced Levels (A Level)

PROJECTS AND ACHIEVEMENTS

- Document Generator Tool: Built a tool to automate document generation from JSON to PDF/CSV for Queries AI.
- Search AutoComplete & Map Search: Delivered seamless user experiences for dynamic search systems using React.js and Next.js.
- Developed a consistent system from CSS to routes for the repetitive similar like projects.
- Daily Star Award for achieving outstanding results in O levels.

NOTABLE STRENGTHS

- Proficient in client communication, including remote collaboration.
- Adept at scalable architecture design for modern web applications.
- Strong enthusiasm for code optimization and efficient solutions.
